

Mound Area Sewer and Lift Station Improvements Project Update

November 22, 2016

Construction of the new lift station is underway

For the next two to three weeks, you'll notice crews from Magney Construction mobilizing near the southwest corner of Wilshire Blvd and Bradford Ln. A trailer, crane and other heavy construction equipment will be arriving onsite. Please anticipate an increase in truck traffic while crews begin pouring concrete for the lift station's foundation.

What you can expect along Bradford Ln. for the next month

Crews completed the installation of sewer pipe along Bradford Ln., between Wilshire Blvd. and Monmouth Rd.

Bradford Ln. is anticipated to remain closed between Wilshire Blvd. and Monmouth Rd. through Fall 2017. This closure is necessary for crews to continue construction at the lift station.

Monmouth Rd. and Bradford Ln. intersection to reopen by Friday, December 2

Crews anticipate the intersection of Monmouth Rd. and Bradford Lane to reopen by Friday, December 2nd as pit excavation is near completion.

Nearby Road Construction Projects

The City of Mound also has nearby work occurring on other local streets. For more information about city projects and to sign up for city road construction updates, visit the City of Mound's website at www.cityofmound.com.
