December 5, 2023

Mayor Holt  
Council Members  
City of Mound  
2415 Wilshire Boulevard  
Mound, MN 55364

Dear Mayor and Council Members,

Please find the attached 2024 proposed *final* budget for your review and consideration.

Prior to the preliminary budget approval at the September 26, 2023 City Council meeting, the City Council had embarked on the establishment of a Strategic Planning/Financial Management Plan process with the help of an outside financial advisor, Ehlers. The process has stimulated in depth review and discussion on topics that include long term capital planning and debt management, revenue diversification, and ongoing sustainable operations and services.

The preliminary budget and levy was discussed at the September 12, 2023 City Council meeting. It was at this meeting that the City Council directed staff to return to the September 26, 2023 with a resolution that reflected a 15% preliminary levy dollar increase for the year 2024. The preliminary data was certified to Hennepin County by the September 30 deadline and subsequently used by the County to create preliminary estimated tax statements that were mailed to property owners in November. A reminder that these tax statements are based on preliminary levy information. The final tax statements are based on the final levy that will be approved at the December 12, 2023 meeting. A reminder that the final levy must be the same or lower than the preliminary levy.

The approved preliminary budget reflected an operating budget that incorporated a ‘baseline’ budget (same level of service as 2023). It took into consideration cost changes related to inflation and the need to add additional staff in 2024, including a Public Works Director and fleet mechanic. It also reflected the reality that the City continues to trend downward in its allocation of State Local Government Aid (LGA) dollars. The reduction and elimination of LGA means that the City of Mound must make up for the loss of those funds elsewhere. Lastly, it incorporated an additional \$200K towards the City’s 401 Fund: Infrastructure Replacement Fund in anticipation of mill and overlay street improvement projects scheduled to begin in 2025.

Since the September 26, 2023 meeting, the City Council and staff have continued discussions on how to and where to reduce the preliminary levy.

## **BUDGET HIGHLIGHTS**

### **Expenses**

Our charge as city officials is to provide for the health, safety and welfare of the citizens. That generally means providing for basic services and needs. Other services beyond that scope can be thought of as enhancements to quality of life that as a matter of policy, should be determined by the City Council.

The city has been historically benefitting from low inflation for over a decade, including lower fuel prices and wages. The 2024 budget is reflecting costs related to increased inflation trends. This has resulted in increased budgeted costs related to things like fuel, insurance, supplies, and contracted services.

Part of the 2024 budget included a contract negotiation with the Public Works Union (Teamsters Local 320) for a three-year contract (2024 – 2026). As mentioned previously, it also incorporates staffing changes that will occur in 2024.

### **Revenues**

Diagrams within the budget packet show changes in the levy and tax rate over the years.

The City's Local Government State Aid (LGA) will decrease again in 2024 to \$74,762 from \$169K in 2023. The dramatic drops in LGA funding resulted from Mound's larger increase in tax capacity compared to the state wide average and these funds are unlikely to return any time soon in the near future.

For 2024, the State has approved *one-time* public safety money of \$412K which provides relief and supports the purchase of items and operations that would otherwise be supported by the general levy.

The City Council has approved moving forward with electric and gas franchise fee changes as a way to diversify revenue sources. This increase reduces diversifies revenue and therefore reduces some reliance on the property tax levy for the amount that is supported through those fees.

### **Enterprise Funds**

#### **Liquor Store Fund**

The Liquor Fund began contributing to tax relief to the general fund again in 2012.

2012 – 2016	\$50,000
2017 – 2018	\$125,000
2019 – 2020	\$175,000
2021	\$200,000
2022	\$250,000
2023	\$300,000
2024	\$360,000

These funds pass through the general fund to the street maintenance (seal coating) fund which is an integral component of maintaining our streets and extending their life. The long term street

maintenance plan recommends seal coating the streets every 5 – 7 years. In addition, a one-time mill and overlay within that plan is incorporated in the plan. All together, these maintenance measures allow streets last 30+ years.

In 2022, wages were increased for the part-time liquor store clerk (as well as volunteer fire-fighters, and seasonal public works maintenance worker positions) in order to keep wages competitive. In Minnesota, the city is considered a large employer with over \$500K in revenues. Minimum wage for large employers is \$10.59 per hour. Although our starting wages for our part-time and seasonal positions are above this amount, we no longer enjoy the competitive advantage that we once had; and the base wage to simply motivate individuals to take a job and come to work has changed significantly across the employee-base.

The liquor store staff continues to focus on quality selection, customer service, and convenience. Sales and profitability trends remain favorable with the store being named the most profitable (based on net profit margin) in the metro area by Twin Cities Business Journal in 2021, up from #3 in 2020.

### **Water Fund**

The City Council voted to freeze water rates between the years 2018 – 2022 to provide relief to utility customers. A 3% increase was approved for the year 2023. The fund currently has a significant cash deficit that is being supported by governmental funds. To support necessary infrastructure projects, the City dedicated the \$1M of American Rescue Plan funds for water main improvements. The water fund cash deficit grew to \$4.84M as of June 30, 2023.

The current long-term financial planning and strategic planning process discussions with the outside financial advisor, Ehlers, has allowed the City Council to understand what may be needed to reduce the deficit and get the fund health again. Part of this process includes doing a water rate study (to be completed in 2024). This study will incorporate in future capital and infrastructure needs including water treatment facility operations.

### **Sewer Fund**

Lift Station Upgrades - The city has 30 sanitary sewer lift stations, 26 of which will have been replaced as of 2023. The plan has been to replace one lift station every year as a way to limit rate increases to 3%. The sewer fund was operating with cash deficits until the City Council approved \$4.2M in bonds in 2020 to reimburse the City for previous sewer infrastructure improvements. The bond is being repaid by a general tax levy. The City is trying to balance property tax and utility rate increases all while continuing to focus on necessary infrastructure updates.

Manholes are also being rehabilitated. This rehabilitation program is a mandate from the Metropolitan Council (Met Council). By upgrading this infrastructure, the City hopes to reduce Inflow and Infiltration (I/I) as a way to reduce fees to the Met Council for wastewater treatment. While the city works on lining *public* sewer pipes, it should be noted nearly 50% of the pipes are on private property which also contribute to I/I.

Metropolitan Council – wastewater treatment fees will increase slightly (2.31%) in 2024 after seeing decreases in 2022 and 2023. This is a highly volatile line item for the sewer fund and staff continues to work with the Met Council to evaluate its fee formula and meter inflow into Mound lines from both the Met Council and neighboring city lines. The city's extensive collaboration with Met Council on joint projects have streamlined the system, reducing I/I and the chance of backflow during large rain events.

The long term financial planning and strategic planning process has also allowed the City Council to determine that a rate study for this fund will also provide benefit. It will be completed in 2024.

### **Storm Sewer Fund**

Storm sewer projects continue to be a focus in conjunction with the street projects. The City also understands that there are outstanding needs that remain with over 200 outfalls into Lake Minnetonka that are required to upgraded and maintained to reduce the amount of phosphorus and sediments that flow into the lakes. Upgrades include mitigating storm water drainage problems such as washouts, standing water in the streets and water in yards and homes.

In 2018, the City Council approved a reduction to residential storm water fees as a way to provide relief to utility customers.

After the completion of the street projects in 2018, storm water investments have continued to diminish significantly current bonds mature and the fund continues to recover. The cash deficit increased to \$1.8M as of 6/30/23, and will continue to grow as revenues do not cover operating costs and debt service. The majority of new improvements are being charged to the Infrastructure Replacement Reserve Fund (401).

In conjunction with the water and sewer rate study being conducted in 2024, staff will do its own internal review on the storm sewer fund to assess how to get it healthy again.

### **Recycling Fund**

The City renewed its curbside recycling contract with Republic Services for a flat \$5.10 per household per month (PHPM) for the years 2022-2026 and a flat \$5.85 PHPM for the years 2027-2031 (with no fuel escalators). The city currently collects \$5.25 per month from every household on their utility bill. The difference between the Republic Services rate and the collection rate is what pays for administering the program by the city, leaf drop off, and the annual May "clean-up" day hosted with the City of Minnetrista.

The Hennepin County recycling grant has been steadily decreasing, reflecting the County's shift to focus on organics recycling. The city implemented a trial organics recycling drop-off site in the Centennial Building parking lot, as required by Hennepin County. Residents can participate by registering and obtaining a key at City Hall. This helps to protect against illegal dumping and rodents. About 95 households have signed up and we will continue to promote the program in the quarterly newsletter.

## **LEVY SUMMARY**

### **Special Revenue Funds / HRA Levy**

The HRA levy funds the municipally-owned portions of the Harbor/Transit District. An HRA budget in Fund 285 has been established for the Harbor/Transit District's routine care and long-term maintenance, which are costs that go beyond the debt service requirement for the transit center bonds.

The HRA levy amount is limited to 1.85% of the prior year taxable market value, which is \$411K for 2024, but Staff is recommending to keep it essentially flat at \$250,000.

Approximately 70% pays for the debt service on the parking deck and the other 30% is credited to the Harbor/Transit District.

### **Tax Levy Recap**

Another consideration is the City Property Tax Rate (Net Levy/Tax Capacity = Tax Rate). The overall tax rate has continued to decreasing steadily from a high of 57% in 2014. The 2024 proposed final tax rate is 33.38%. Tax capacity for 2024 increased \$2.2M or 10% over prior year after increasing 5M or 31% in 2023. The increases result in a significant drop in the tax rate from 2022 as shown in the table below.

Summary	2022 Budget	2023 Budget	2024 Preliminary Levy	2024 Proposed Levy
Change to Total Levy %	5.0%	5.0%	14.86%	11.66%
Projected City Tax Rate	40.2%	32.4%	34.2%	33.2%
Increase in Tax Levy \$\$ from Prior Yr	\$ 314,378	\$ 330,171	\$ 1,030,956	\$ 808,456
Capital Reserve Funding	\$ 880,000	\$ 703,000	\$ 1,383,928	\$ 1,383,928
Special Levies (Bonds & Fire Relief)	\$ 1,715,706	\$ 1,418,928	\$ 1,191,313	\$ 1,191,313
Local Government Aid	\$ 313,146	\$ 168,842	\$ 74,762	\$ 74,762

Fund Balance is important to maintain in order to provide cash flow between the bi-annual tax receipts. Unassigned fund balance is a key factor in the city's bond rating and a reflection of its fiscal strength.

The City of Mound has an informal target of 20% unassigned fund balance as a percentage of expenditures. The Office of the State Auditor recommends a *total* fund balance of 35% - 50%, a range we have also been able to consistently maintain. Standard and Poor's renewed the AA Stable bond rating for the 2020 bond issue.

In closing, we recognize the budget and the resultant levy is the prerogative of the City Council. If you have questions, please feel free to call or email us in advance.

Thank you for your kind consideration.

Respectfully,

*Eric Hoversten*
