

## **Who removes snow from sidewalks?**

Snow removal and ice control on sidewalks is the responsibility of property owners residing or controlling the properties adjacent to these sidewalks as follows:

- Residents living in single-family homes or duplexes must remove snow and ice from sidewalks within 12 hours.
- Apartment and commercial building owners are to clear sidewalks within four (4) daytime hours after the storm ends.
- Pile snow into yards and boulevards. Do no snow into the streets, it is against the law.
