Council Members
City of Mound
2415 Wilshire Boulevard
Mound, MN 55364

Dear Mayor and Council Members,

Please find the attached 2022 proposed *final* budget for your review and consideration. The Council approved a 5% increase to the Total Levy and 3% increase to sewer rates at the September 14th regular meeting and directed staff on a series of changes to the fee schedule at the October 19th special meeting workshop on the budget and CIP. This final budget reflects those decisions along with some minor/immaterial changes to the special revenue (Dock/Harbor District) and enterprise funds (recycling/storm).

BUDGET HIGHLIGHTS

Expenses

The city benefited from low inflation, fuel prices and being exempted from sales tax for many years and Staff will be monitoring price fluctuations that might arise from inflation and supply chain issues. From a materiality standpoint, that is most likely to impact construction projects, which are approved project by project. This majority of the operating budget is payroll, and with the Collective Bargaining Agreement for 2021-2023 contract settled with a 3% increase to wages per year, it is assumed we will be able to absorb inflationary impacts in the funds as a whole and by deferring some purchases. For instance, a rip rap project has not been proposed for 2021 or 2022 after seeing an extraordinary increase in the cost of the boulders. General Fund expenditures for 2022 grew 1.9%, helped in part by the restructuring of the Finance & Administrative Services Department and the expiration of the contract with the Gillespie Center.

Programming

Our charge as city officials is to provide for the health, safety and welfare of the citizens. That generally means providing for the basic needs, including public safety, streets, water and sewer. Over the years, the Council and Staff have often been challenged to increase the level of existing services or take on entirely new ones. The pandemic created an opportunity to reexamine the capacity of the city to do more. Fortunately, our partners at the county, state and federal level were able to expand their capacities as the health and human services providers, in addition to economic development, and provide programs to help individuals and businesses in need.

There have also been calls for the city to do more for preserving the water quality and navigability of Lake Minnetonka. It will be an increasing challenge not to overcommit/overextend the City to solve issues related to public waters owned by the State and governed by the DNR, MCWD and LMCD. Similarly, the need and desire to rehabilitate sidewalks in our downtown area is emerging much faster than anticipated. Lastly, the City has to mitigate the impacts of unfunded mandates (ie. organics recycling) and changes in environmental standards (ie. manganese in water supply) and determine what are acceptable outcomes.

Ultimately, the decision on levels of service reside with the City Council. The key will be to identify and understand any corresponding impacts on precedent, capacity and finances, both in the short term and long term. For instance, the Council has set a goal not to use special assessments in the next generation of street improvements, and approved building reserve funds as the prior debt matures. The challenge is special assessments paid for 2/3rds of the street portion, so just allowing any amount levied for the city's 1/3 portion of debt service to now be put in a reserve fund may not be enough to cover the difference, particularly when you adjust for inflation.

Revenues

Schedules have been included to show changes in the levy and tax rate over the years.

A 8% increase is proposed for the General Fund Revenue levy, which at 85% capture rate and a reduction in PERA State Aid, equates to a 5.3% increase in total General Fund revenue. The additional revenue and modest increase in expenses will allow us to reduce the budgeted use of reserves of \$394K in 2021 to \$166K in 2022, an important milestone.

A 5% Total Levy increase and reduction in some of the debt service levies allows us to increase the capital reserve funding from \$775K in 2021 to \$880K in 2022. Per the long-term financial plan approved in 2018 and updated annually, the city created capital reserve funds which will continue to be funded as older debt issues mature and will pave the way to reducing bonding needs and special assessments for the next generation of street and capital improvements.

The Council approved keeping the electric and gas franchise fees in place through December 31, 2025, at the same rate of \$2.75 per meter per month. It should be noted that Public Works and Fire support the gas and electric companies on a frequent basis during storm-cleanup, after lines have been severed in construction, in response to gas leaks, etc.

Enterprise Funds

Liquor Store Fund

The Liquor Fund began contributing to tax relief again in 2012, \$50K per year for 2012 – 2016, \$125K in 2017/18, \$175K for 2019/20 and \$200K in 2021, and \$250K in 2022. Past tradition has been to use these funds for the seal coat program/road maintenance, but allocating a portion to the Community Investment Fund would help to bolster marketing and meet underfunded needs. Seal coating is also an integral component of extending the life of our new streets. The plan is to seal coat the streets every 5 – 7 years. That, along with a one-time mill and overlay, should make the new streets last over 30 years. The underlying water and sewer infrastructure is expected to last 40 – 50 years although it should be noted not 100% of pipes were replaced during the road projects, so repairs and lining projects will continue.

It should be noted that the increase in minimum wage required by state law is putting pressure on keeping our part-time liquor store clerk, volunteer fire-fighter, and seasonal public works maintenance worker positions competitive. In Minnesota, the city is considered a large employer with over \$500K in revenues. Minimum wage for large employers is \$10.08 per hour and will increase by CPI for 2022. Although our starting wages for the part-time and seasonal positions are above those amounts, we no longer enjoy the competitive advantage that we once had.

The store staff focuses on quality, selection, customer service and convenience. The remodel was completed in February 2020 and revenues had large gains starting in March due to the COVID-19 pandemic and associated stay at home order. Even as the economy opens back up, sales trends remain favorable, and the store achieved the third highest in profitability in 2020 among the 18 metro-area municipal liquor stores. It should be noted the top two performers, Savage and Apple Valley, have 2 and 3 stores, respectively, and benefit from volume buying discounts, making our store's accomplishment all the more meaningful.

Water Fund

The Council voted to freeze water rates for 2018-21 to provide relief to utility customers. The fund is running a significant cash deficit which is covered by the governmental funds in order to manage the utility rates while continuing the needed infrastructure improvements. The City will use the \$1M of American Rescue Plan funds for watermain improvements and has until 2024 to spend the funds. The cash deficit grew from \$1.44M in 2019 to \$2.87M in 2020. A survey of area community utility rate comparisons has been included and demonstrates Mound is no longer the highest overall, but short-term relief and postponement of increases seems warranted for at least another year as our residents recover from the pandemic.

Sewer Fund

Lift Station Upgrades - The city has 30 sanitary sewer lift stations, 23 of which will have been replaced as of 2021. The plan is to replace one per year and try to limit the increase of sewer rates to 3%. The fund was operating with cash deficits, until the City Council approved \$4.2M in bonds in 2020 that reimbursed the City for sewer infrastructure improvements but will be repaid by the tax levy. To reiterate, the City is trying to balance property tax and utility rate increases with the need to continue infrastructure updates.

In addition to replacement of critical pumping infrastructure, the City continues to assess and repair mains. Past practice to address and eliminate inflow and infiltration (I&I) has included lining sewer pipes with cure-in-place pipe (CIPP). Staff has re-directed this investment to manhole rehabilitation which addresses their higher I&I risk; and gains a higher credit toward I&I exceedance surcharge assignments. The City remains under an I&I surcharge workplan through 2024 from a rain event in 2019. Overall these investments are intended to reduce our total flow to MCES and resulting fees for wastewater treatment; and to avoid any future penalties for flow exceedance. While the city works on rehabilitating *public* sewer pipes and facilities, it should be noted nearly 50% of sewer pipes are on private property and also contribute to I&I.

Metropolitan Council wastewater treatment fees are down (4%) in 2022, after an increase of 17% in 2021. This is a highly volatile line item for the sewer fund and staff will continue to work with the Met Council to evaluate its formula and meter inflow into Mound lines from both the Met Council and neighboring city lines. The city's extensive collaboration with Met Council on joint projects has streamlined the system, reduced I&I, and the chance of future overflows.

Storm Sewer Fund

Storm sewer projects have increased dramatically in conjunction with the street projects and outstanding needs remain as we have over 200 outfalls into Lake Minnetonka that we are required to upgrade and maintain to reduce the amount of phosphorus and sediments flowing into the lake. Upgrades to the storm sewer system include mitigating storm water drainage problems such as washouts, standing water in the streets, and water in yards and homes. In 2018, the Council approved a reduction to residential storm water fees in order to provide relief to utility customers. Reductions to street light and storm water utility fees resulted in a 14.5% reduction to the base quarterly residential utility bill. With the completion of the street projects in 2018, storm water management investments will diminish significantly until some of the bonds mature and the fund begins to recover. The cash deficit of \$947K in 2020 will continue to grow as revenues do not cover operating costs and debt service. At the October 19, 2021 special meeting workshop, the Council agreed that any engineering or project related expenses related to storm water management will be charged to the Capital Reserve Funds.

Recycling Fund

We negotiated a 10-year curbside recycling contract beginning in 2017 with a flat rate of \$3.51 for the first five years and an optional additional 5 years at \$4.05. Our current service provider, Republic Services, gave proper notice that they can't honor the 5-year extension option due to significant changes in the demand for recycled material from China. The City requested proposals for services starting on 1/1/2022 and it was determined that utilizing the existing carts continues to be the most equitable solution for City. Republic Services will charge a flat \$5.10 per household per month (PHPM) for 2022-2026 and a flat \$5.85 PHPM for 2027-2031.

Residents currently pay \$4.00 a month, and Staff recommends increasing to \$5.25 per month. The difference of which pays for administering the program, leaf drop off and the annual May "clean-up" day hosted with the City of Minnetrista. The Hennepin County recycling grant is \$14,725 for 2022, down from \$30K in 2017, reflecting the County's shift to focus on organics recycling. We negotiated a one-year extension for the 'leaf' drop-off service, and this will be another example of the city having to decide to increase the level of service (and fees) to allow for more than leaves and brush.

LEVY SUMMARY

Special Revenue Funds / HRA Levy

The HRA levies to fund the municipally-owned portions of the Harbor/Transit District which was established to spur redevelopment. An HRA budget in Fund 285 has been established for the Harbor/Transit District's routine care and long-term maintenance, which are costs that go beyond the debt service requirement for the transit center bonds.

The HRA levy amount is limited to 1.85% of the prior year taxable market value, which is \$289,444 for 2022, but Staff is recommending a HRA levy flat at \$248,555. Approximately 70% pays for the debt service on the parking deck and the other 30% is credited to the Harbor/Transit District.

Starting in 2019, accounting for the Lost Lake Slip revenues moved to Fund 285. These slips are technically not part of the Common Docks Program (Fund 281) although they are managed in conjunction with it. Separating the funds from the regular dock program better demonstrates

how these revenues will be used to maintain the entire Harbor District, including but not limited to, the Lost Lake Slips, Greenway, pier, ultimate re-dredge, and park improvements.

Tax Levy Recap

Another consideration is the City Property Tax Rate (Net Levy/Tax Capacity = Tax Rate). Tax capacity increased in 2015, the first time since 2009, and the overall tax rate is decreasing steadily from a high of 57% in 2014.

The 2022 budget impact is depicted in the following summary:

Summary	2021 Actual	2022 Proposed
Change to Total Levy %	5.0%	5.0%
Projected City Tax Rate	39.8%	40.2%
Increase in Tax Levy \$\$ from Prior Yr	\$ 297,989	\$ 314,378
Annual Capital Reserve Funding	\$ 775,000	\$ 880,000
Projected Bonding Needs 2020 - 2030	\$ 9,600,000	TBD
Change to Sewer Rate %	3.0%	3.0%
Increase in Sewer Revenue from Pr Yr	\$ 72,120	\$ 74,284

Fund Balance is important to maintain in order to provide cash flow between the bi-annual tax receipts. Unassigned fund balance is a key factor in the city's bond rating and a reflection of its fiscal strength. The City of Mound has an informal target of 20% unassigned fund balance as a percentage of expenditures, which we have been able to maintain at or better, with the exception of 2011 when the classifications changed due to the implementation of GASB 54. The Office of the State Auditor recommends a *total* fund balance of 35% - 50%, a range we have also been able to consistently maintain. Standard and Poors renewed the AA Stable bond rating for the 2020 bond issue.

In closing, we recognize the budget and the resultant levy is the prerogative of the City Council. If you have questions, please feel free to call or email us in advance.

Thank you for your kind consideration.

Respectfully,

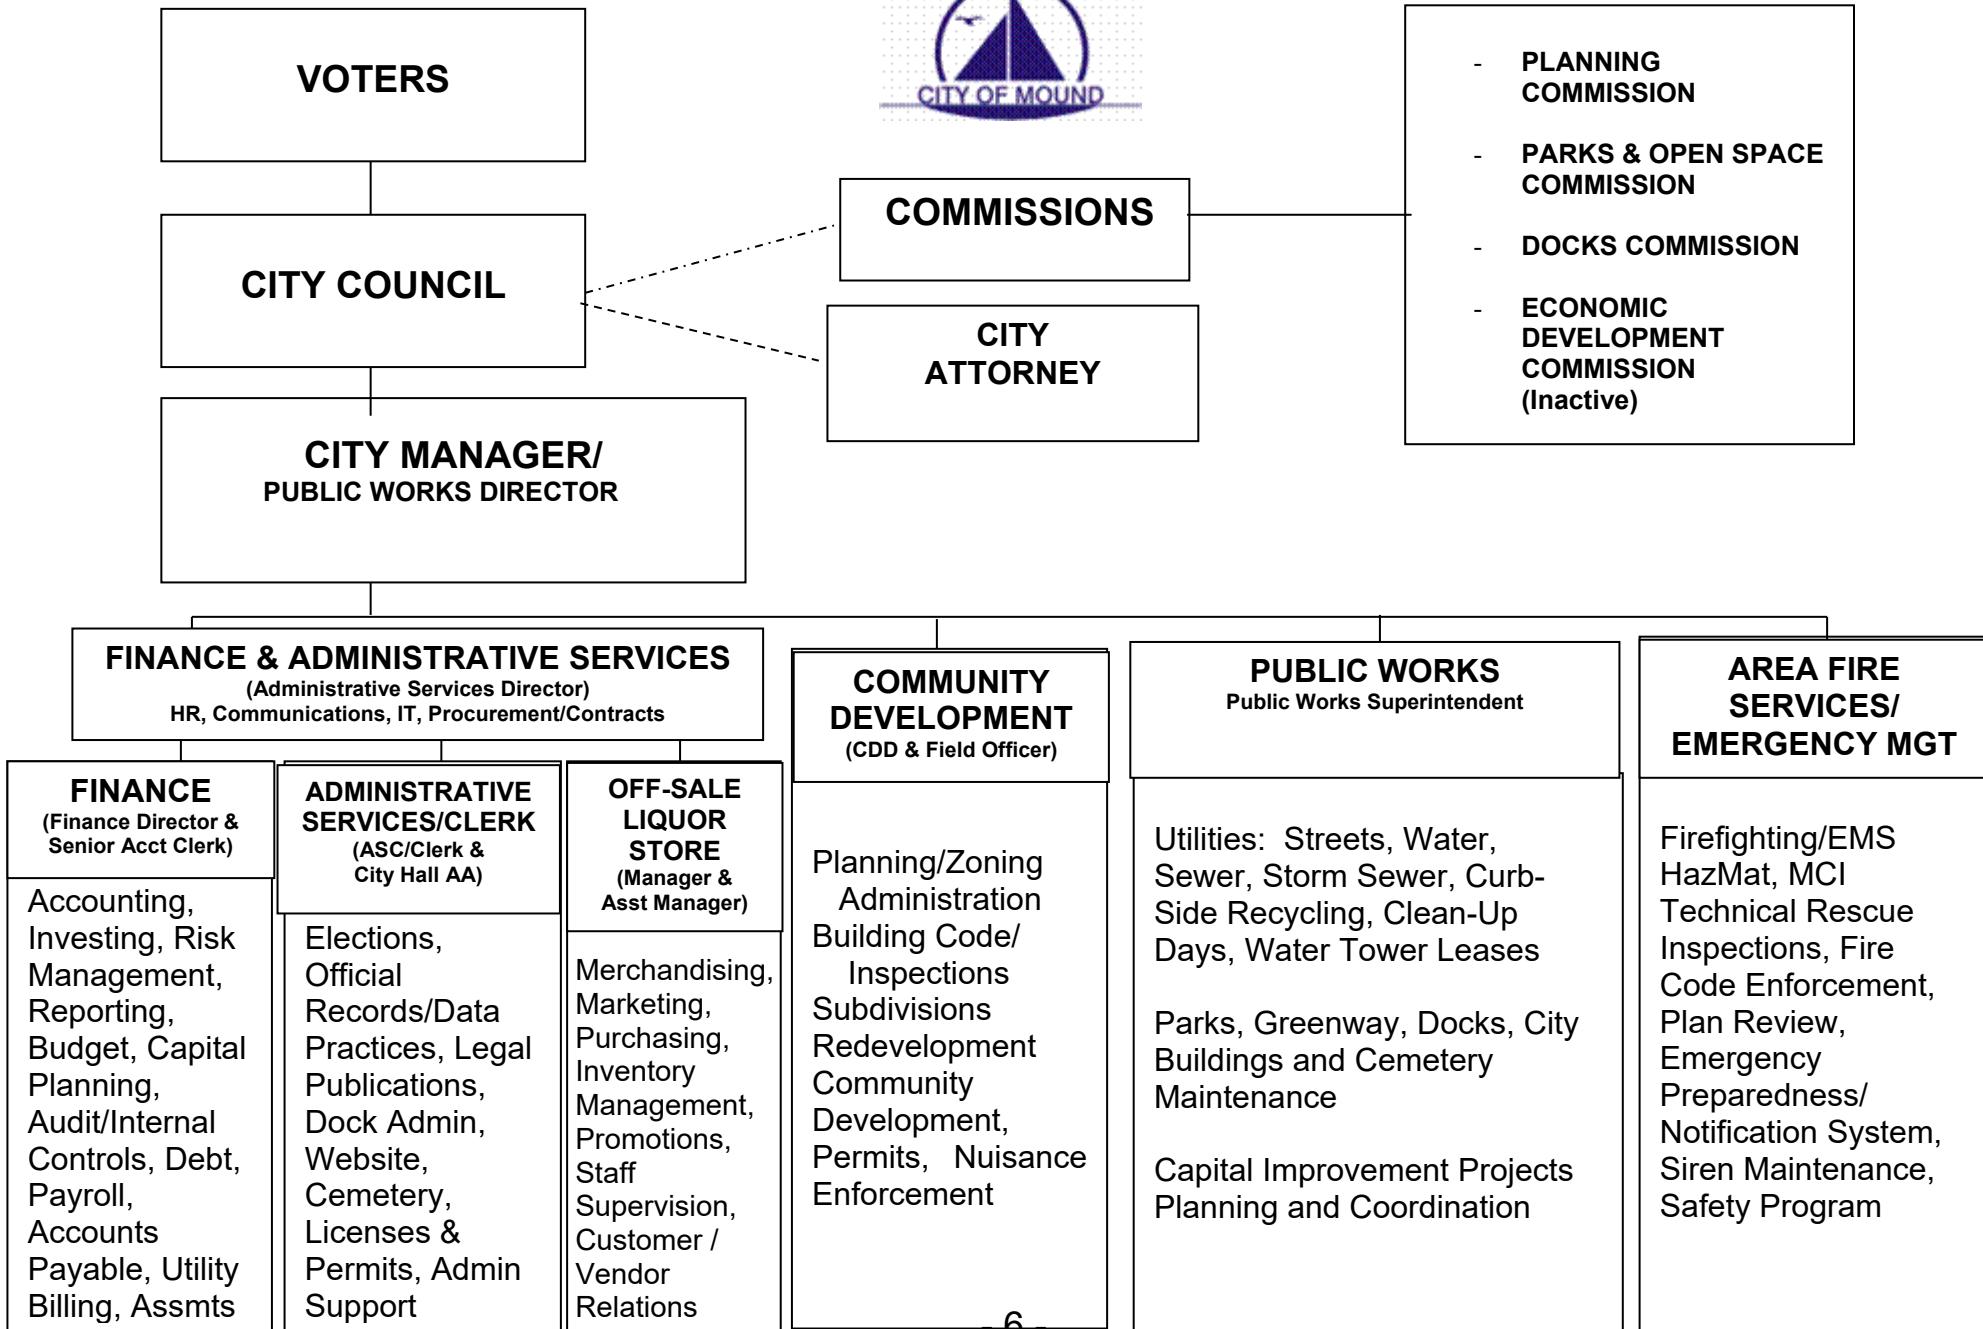

Eric Hoversten
